Future Enhancements

- **Collaborative Traveler Network** - System connecting travelers affected by the same disruption, enabling resource sharing like transportation costs or hotel rooms during major delays.
- **Intermodal Disruption Insurance** - Built-in protection that covers all segments of your journey regardless of transportation type or provider
- **Enhanced offline capabilities**- that store not just documentation but provide full rebooking options without requiring WiFi

FlyEase transforms unexpected flight delays into smooth, stress-free experiences. With FlyEase, every journey stays easy, no matter what.
